

Secure Surgery Website

Manage your own website for £199 per year with free setup!

Our high quality, low cost website package enables you to stay in control of your practice website. It can be easily updated at any time from anywhere with internet access. The website comes with an easy to use text editor, no technical knowledge is required and support is always available.

Free no obligation trial!

We offer a free, no obligation to buy trial to all of our customers.

We use your practice leaflet or existing website to set up your secure surgery website totally free of charge. We then hand over to you to for a trial period giving you plenty of time to play and amend the content of the site if necessary.

This will allow you to fully test all the features of the website package and decide if it is right for your practice.

'The website was set up very quickly from our existing practice brochure. Queries were answered promptly from helpful staff.'

'The layout is very professional, attractive and easy to navigate for both patients and practice staff. Patient usage has also been higher than we expected. The ability to be able to edit the content quickly and easily with immediate effect has proved to be both important and useful.'

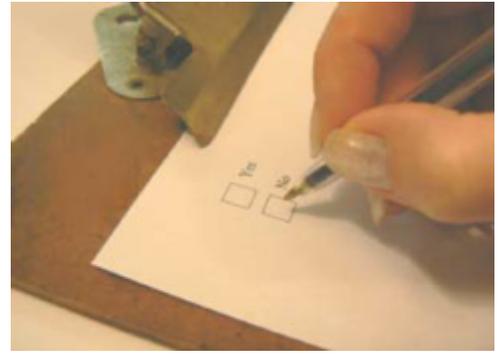

Some of the great features we offer:

- Create as many pages for your website as you like - there are no limits!
- Secure management console
- Free NHS domain name (website address)
- Simple website layout for your patients to understand
- Customise the look of your website to suit your individual practice
- Widgets which allow you to easily display an interactive location or practice area map, news, forms and useful links
- Secure online forms allowing patients to, for example, request repeat prescriptions, inform you of a change of address, cancel an appointment, update their records and more
- Newsletter management system
- Compatible with all clinical systems including any online system that they offer, for example Emis Access, SystemOnline, Vision Online or Frontdesk Appointments

Patient Questionnaires

The website package comes with the General Practice Assessment Questionnaire (GPAQ).

You also have the ability to create your own questionnaires for your patients too.

'We were absolutely delighted with the speed and efficiency with which the website was put together, and for such a reasonable cost.'

'We are also delighted as it is so easy to alter, amend and add bits too.'

'We have had several comments from patients who are more than pleased that we have hit the 21st Century.'

Secure Staff Area

Upload documents to a secure password protected area on your website that your staff can access (using their own login details) from anywhere.

Why not upload your staff rota here or other documents that staff may wish to access when not in the surgery.

So how much does it cost?

£199 + VAT per year

That's all, there are no hidden costs. So what do you get for this fee:

- **Professional website hosting.** Our dedicated servers are owned and managed by us and situated in a secure data centre
- **Free set up service**
- **Support** available whenever you need it by email or telephone
- **Updates** and new features added at no extra cost
- **A domain** (website address) provided free of charge by the NHS
- **No advertisements!**
